

SAVOR THE SIPS AND MIND THE DRIPS

PLEASE
HELP US
CONSERVE
WATER

THANK
YOU!

We're doing our part to maintain a precious resource. We think it's a safe bet that you will want to do your part too.

So let's work as a team to help make a difference. Instead of automatically placing water on your table, we will provide it only upon request. If you need a refill, all you have to do is ask.

It's our number-one priority to make sure you're satisfied while you're our guest, and we hope you'll happily join forces with us to be responsible environmental stewards.
